CORRELATION GUIDE
FOR
MILADY STANDARD BARBERING, 6TH EDITION
The purpose of the *MindTap Correlation Guide* is to aid you, the educator, in integrating this exciting new resource into your barber program. MindTap is a personalized teaching experience with assignments that guide students to analyze, apply, and improve thinking, allowing you to measure skills and outcomes with ease. Built upon authoritative Milady content, MindTap guides students through a single learning path where they interact with learning tools — readings, multimedia, activities and assessments — in a READ, WATCH and DO format. You can personalize the experience by customizing Milady content or by adding your own content directly into the Learning Path, delivering a seamless student experience that aligns exactly with the curriculum being taught in (or outside of) your classroom.

- The correlation guide in a chapter-by-chapter format, aligning specifically with the textbook.
- It provides an in-depth breakdown of the activities contained within the MindTap Learning Path, emphasizing the specific activity type and accompanying description.
- In order to assist you with fully integrating MindTap into your curriculum and assigning activities to your students, we’ve provided the corresponding lesson plan pages from the Course Management Guide and the companion Instructor Support Slides.
- With this helpful guide, our goal is for you to experience a more seamless process when assigning MindTap-related activities to your students, while simply referring to your existing syllabus and curriculum.
# Chapter 1 - The History of Barbering
