

# Monopoly Review

**Objective:** Bring fun into the classroom by playing a game of Monopoly.

## Ways to Play:

- During downtime, have students play as small groups with the actual game.
- Play as a class. Google “Monopoly board images” and select an image. Put the image into a PowerPoint slide. Project the game board onto the screen. Divide the class into teams and play. You can print out images of the tokens and have each team pick one token. Tape it to the Monopoly game projected on the board in the “Go” space. Teams can then move their pieces around the board. You’ll want to print the game’s houses and hotels (salons) too! Since you are printing your own tokens, you can make them things that are industry related, such as shears, shampoo bottle, tint brush, perm rod, makeup brush, nail file, etc.
- Turn it into a review game. Each team must answer a review question correctly for their turn at rolling the dice. If they fail to answer the question correctly, they lose their turn.

**Topic:** Any

**Number of Students:** 2-8 Individuals or Teams (up to 5 players per team)

## Preparation/Materials Required:

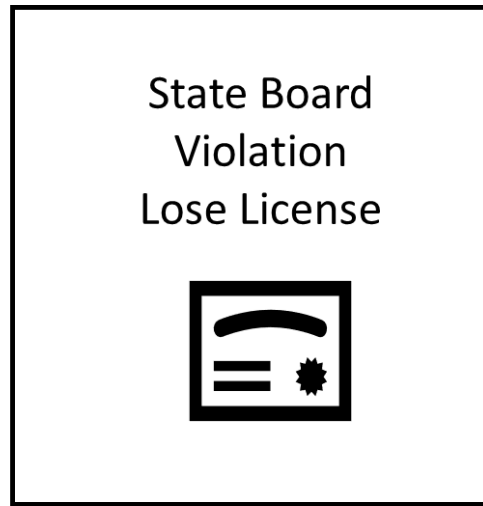

- Monopoly game (need Monopoly money and property deeds)
  - **Game board:** On the game board, make the following changes to the board:
    - “In Jail” should become “State Board Jail: Lost Your License”
    - “Go to Jail” should become “State Board Violation – Lose License”
    - The “railroad” spaces will become “Beauty Supply Stores”
- \* See below for “property spaces” you can print out and tape to your board to cover the old properties.
- **Chance and Community Chest Cards**
    - Create your own Chance and Community Chest cards.\*

\* To help you out, I’ve done them for you. See below. Print them on two different colors of paper so you know which is which.

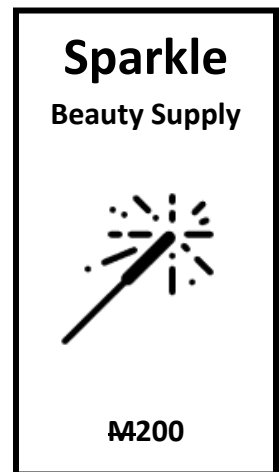

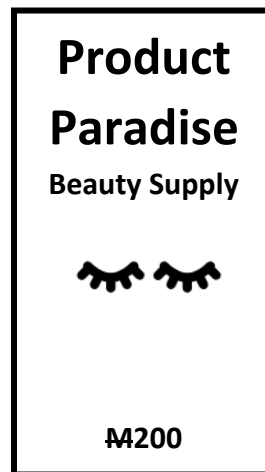

- **Properties and Building Houses and Hotels**
  - Another adjustment to the game: when a student/team purchases a property, rather than it being an undeveloped piece of property, follow the following guide for type of salons/shops:
    - 0 houses = Booth Rental
    - 1 house = Individual Ownership
    - 2 houses = Partnership Ownership
    - 3 houses = Corporate Ownership
    - 4 houses = Franchise Ownership
    - Hotel = Beauty School
  - As players land on the property owned by another group, they will pay booth rental fees or tuition based on the type salon.
- **Dice**
  - If you are playing as a group in class, you might want to invest in a pair of large dice that can be seen by everyone when they are rolled. Check out Amazon—it has lots to choose from.

**How to Play:** Follow all rules for playing Monopoly, incorporating the changes listed above.

**ACTION SPACES:** Print and place these over “Jail” and “Go to Jail”

**PROPERTY:** Print these and place over the 4 Railroads Properties

**PROPERTY DEED: Print these and use in place of the 4 Railroad property deeds**

**FRONT**

**Beauty Bounty
